

Focus on Education

Committed to the mission of educating the next-generation of difference-makers and leaders with a team of experienced professionals

- › Vendor certified systems & implementation engineers
- › Experienced, education oriented account managers
- › Compliance specialists
- › PMP Certified project managers
- › CISSP Certified solutions architects
- › PCI Certification

The rapid evolution of technology is changing how we learn and educate. Work styles have shifted and new regulations are mandated. Today, students need pervasive access to the latest applications and up-to-date information on a new generation of devices.

Simply put, technology is no longer a novelty in Education. It is the platform for Education.

With strengths in every discipline across the entire IT portfolio — including networking, wireless, storage, virtualization and security — Structured is your partner to develop and implement technology strategies that drive impact throughout your organization.

Technology Solutions

Robust, best-in-breed solutions capitalize on existing investments and handle the demands of an evolving education landscape.

- › **Network design and implementation** for data center infrastructure, mobility and wireless
- › **Application delivery** for education applications such as virtualized desktops, application virtualization and mobility
- › **Data management** for business continuity, storage and computing solutions
- › **Unified communications and collaboration** with IP PBX and video conferencing, Microsoft Exchange and instant messaging
- › **Information security services** and application-aware threat management to protect from network intrusion

Consulting Services

Integration and professional services, purpose-built for school and campus infrastructure. From individual projects to full outsourcing.

- › Assessments and policy development
- › IT design and deployment
- › Managed IT and Infrastructure
- › Disaster recovery and business continuity testing

Involvement and Industry Support

- › Association for Computing Professionals in Education (ACPE)
- › Information Systems Security Association (ISSA)
- › Society for Information Management (SIM)

Security Assessment

Confront modern security threats and mitigate your risk without sacrificing potential. A Structured network security assessment provides a comprehensive analysis of traditional and new-age threats that target your infrastructure.

Wireless & Mobility Planning

Speed the deployment of mobility services and ensure the functionality of critical applications. A wireless project plan reviews the readiness of your current wireless LAN infrastructure allowing for smooth integration while avoiding costly delays.

“Structured has a knowledgeable and friendly staff that listened to our needs, provided recommendations and viable solutions, and worked alongside the District during the installation and deployment phases.”

Strategic Technologies

“Structured is our go-to solution when we need to complete a project sooner than in-house staff are able to, or when we need to take advantage of the broad range of expertise that’s available from them.”

5 Reasons to choose Structured...

- 1 A culture that values engineering excellence and quality customer service.
- 2 A consultative technology approach, while staying ahead of trends in the industry.
- 3 Key partnerships with leading technology and solution vendors.
- 4 Expert systems architecture, integration and lifecycle support services.
- 5 Veteran leadership with extensive service provider industry experience.

About Structured

Structured is a leading information technology consultancy and systems integrator that has partnered with hundreds of clients throughout the U.S. to maximize the value of IT.

For two decades, Structured consultants have collaborated with CIOs and IT departments to develop and implement technology strategies that drive measurable improvements throughout the organization.
