

Healthcare Team

Structured's healthcare team is composed of industry experts that understand the dynamic, critical, and complicated nature of the healthcare environment.

- › Vendor certified systems & implementation engineers
- › Experienced healthcare account managers
- › Compliance specialists
- › PMP Certified project managers
- › CISSP Certified solutions architects
- › PCI Certification

Structured enables healthcare providers to adhere to the most stringent industry regulations while utilizing the latest in proactive desktop, server and network management methodologies.

With strengths in every discipline across the entire portfolio of healthcare IT—including storage area networking, HIPAA compliance, disaster recovery planning and more—Structured is able to build true medical grade IT environments.

Technology Solutions

Robust, best-in-breed solutions help you make the most of your existing investments and handle the demands of next-generation healthcare.

- › **Network design and implementation** for data center infrastructure, mobility and wireless
- › **Application delivery** for clinical services such as virtualized desktops, application virtualization and mobility
- › **Clinical data management** for business continuity, storage and computing solutions
- › **Clinical collaboration and mobility** with IP PBX and video conferencing, MS Exchange and messaging
- › **Data security services** to protect from network intrusion and penetration

Consulting Services

Professional Services tailored for specific healthcare needs, providing resources to handle IT management needs, from individual projects to full outsourcing.

- › Mobile Device Management
- › IT design and deployment
- › Disaster recovery and business continuity testing
- › Assessments and policy development
- › Managed IT and Infrastructure

EHR Preparedness

Infrastructure and storage assessments designed to give an overall understanding of what needs to be in place for a successful implementation and continued operation of EMR/EHR.

Healthcare Compliance Services

- › Regulatory Compliance: HIPAA, PCI, HiTech, eDiscovery
- › Network Security Audits
- › Intrusion detection and penetration testing

Involvement and Industry Support

- › Healthcare Information and Management Systems Society (HIMSS)
- › Information Systems Security Association (ISSA)
- › Society for Information Management (SIM)

Strategic Technologies

"Structured does a great job of staying on top of new developments and being advisors on new technology. They understand our needs, the risks we're willing to take, and make the right recommendations."

"Structured is good at helping us find the right solution, instead of just selling. Their intent is to meet the needs of the organization instead of just sales."

5 Reasons to choose Structured...

- 1 A culture that values engineering excellence and quality customer service.
- 2 Provides a consultative technology approach, while staying ahead of trends in the industry.
- 3 Key partnerships with leading technology and solution vendors.
- 4 Expert systems architecture, integration and lifecycle support services.
- 5 Veteran leadership with extensive healthcare industry knowledge.

About Structured

Structured is a leading information technology consultancy and systems integrator that has partnered with hundreds of clients throughout the U.S. to maximize the value of IT.

For two decades, Structured consultants have collaborated with CIOs and IT departments to develop and implement technology strategies that drive measurable improvements throughout the organization.
